## 2017

Riot Ten has quickly become one of the fastest rising stars in dubstep and all signs are pointing up for 2018. After hitting a number of key festivals in the US this year, selling out headline shows both domestically and internationally, while also touring alongside the likes of Yellow Claw, Pegboard Nerds, and Kayzo, Riot Ten has no intention of slowing down any time soon. He was just announced as support on Datsik's 2018 Ninja Nation Tour on over 50 shows in Q1, and his recently announced 5 track EP, "The Dead", is releasing on Dim Mak in February. To state that he is entering the new year "hot" would be a gross understatement.
